

This is a sample letter that you could give to the president of the society you are visiting. Providing a packet of information to the society helps to reinforce the ideas and suggestions you have made. Include any helpful hints, handouts, or the current LWML catalog as reference materials for the societies to use. You could present this to the society president at the close of your presentation.

Dear Society President,

Thank you for giving me the opportunity to visit with your society. I believe that the first step in transforming your society to be "young women friendly" is creating awareness among your current members to realize the importance of young women. I appreciate your willingness to do just that.

My goal in this visit is to help your society realize that in order to gain greater involvement from young women, intentional efforts need to be made. This may lead to changing the way things have always been done. If your society is reluctant to change, remind them of the beauty of autumn. The Lord has provided us this wonderful example of change. **Change is necessary**, but it can be a beautiful experience for all to enjoy.

I encourage you to take the information I have suggested and apply what is appropriate for your society. Each group is unique and many of my suggestions may not work for you. Others may be perfect as presented and still others may work if altered just a little bit. Please feel free to adjust any or all to accommodate your needs in developing a "young women friendly" society.

If I can further assist you in any way, please feel free to contact me. I would love to have an update from your society as well, giving me feedback on how your society is progressing. These updates can be passed along to other societies to serve as inspiration to them.

As you embark on this new path, remind yourself of Philippians 4:13. "I can do everything through Christ who gives me strength."

Serving Him with gladness,

(your name)
